“A rich, engrossing, and deeply intelligent story....This is a book I won’t soon forget.” —Molly Wizenberg, bestselling author of A Homemade Life “Fresh, smart, and consistently surprising. If this beautifully written book were a smell, it would be a crisp green apple.” —Claire Dederer, bestselling author of Poser Season to Taste is an aspiring chef’s moving account of finding her way—in the kitchen and beyond—after a tragic accident destroys her sense of smell. Molly Birnbaum’s remarkable story—written with the good cheer and great charm of popular food writers Laurie Colwin and Ruth Reichl—is destined to stand alongside Julie Powell’s Julie and Julia as a classic tale of a cooking life. Season to Taste is sad, funny, joyous, and inspiring.

A celebration of Jewish cuisine in Paris, Alsace and the Loire Valley describes the author’s visits to regional marketplaces and home kitchens, where she discovered thriving Jewish-French culinary traditions shaped by centuries of international influence. By the James Beard Award-winning author of Jewish Cooking in America.

If the Buddha came to dinner at your home, what would you serve? Fast food? A frozen meal quickly reheated in the microwave? Chances are you’d feed your honored guest a delicious meal prepared with love and care. But the next time you have dinner, what will you eat? With so much processed food in the marketplace, obesity in adults and children dramatically on the rise, and digestive problems increasingly more common, it’s clear that we’re facing a serious food crisis in this country. The answer, however, isn’t just to go on a diet. Reducing the intake of refined and processed foods and increasing whole foods certainly can improve one’s health. But we need more. We need to feed ourselves with a sense of purpose, self-respect, love, and passion for our lives. We need to nourish our spirits. Nourishment isn’t a fad diet . . . it’s a lifelong journey, and Halé Sofia Schatz is the ideal guide. Gentle, wise, and humorous, she shows us the way to the heart of nourishment—our own inner wisdom that knows exactly how to feed our whole self. A perfect blend of inspiration and practical suggestions, If the Buddha Came to Dinner includes guidelines for selecting vital foods, ideas for keeping your energy balanced throughout the day, a cleanse program, and over 60 recipes to awaken your palate. Open this book and nurture yourself as never before. You’ll be fed in a whole new way.

“It’s a time of change in the world, with dictators toppling and new opportunities rising, but any revolution that doesn’t create equality for women will be incomplete. The time has come to realize the full potential of half the world’s population.” —Christiane Amanpour, from the foreword The Unfinished Revolution tells the story of the global struggle to secure basic rights for women and girls, including in the Middle East where the Arab Spring raised high hopes, but the political revolutions are so far insufficient to guarantee progress. Around the world, women and girls are trafficked into forced labor and sex slavery, trapped in conflict zones where rape is a weapon of war, prevented from attending school, and kept from making deeply personal choices in their private lives, such as whom and when to marry. In many countries, women are second-class citizens by law. In others, religion and traditions block freedoms such as the right to work, study or access health care. Even in the United States, women who are victims of sexual violence often do not see their attackers brought to justice. More than 30 writers—Nobel Prize laureates, leading activists, top policymakers, and former victims—have contributed to this anthology. Drawing from their rich personal experiences, they tackle some of the toughest questions and offer bold new approaches to problems affecting hundreds of millions of women. This volume is indispensable reading, providing thoughtful analysis from a never-before assembled group of advocates. It shows that the fight for women’s equality is far from over. As Leymah Gbowee, 2011 Nobel Peace Prize Laureate says, “Women are not free anywhere in this world until all women in the world are free.”

This enhanced edition of Clean includes extra audio, video and recipes. In Clean, a New York City cardiologist and a leader in the field of integrative medicine, Dr. Alejandro Junger, offers a major medical breakthrough. Dr. Junger argues that the majority of common ailments are the direct result of toxic build-up in our systems accumulated through the course of our daily lives. As the toxicity of modern life increases and disrupts our systems on a daily basis, bombarding us through our standard American diet and chemical-filled environments, our ability to handle the load hasn’t accelerated at the same rapid pace. The toxins are unavoidable but Clean offers a solution.

"The women who write in this volume challenge the common misconception that the Catholic Churchs teachings are anti-women and anti-sex. Rather, these women believe that it is precisely the Churchs controversial teachings on abortion, sex, marriage, and contraception that bespeak the Churchs love of women-and reverence for sex. Recent empirical evidence reveals just how harmful breaking from these teachings has been for women, their children, and our culture over the past few decades. Indeed, the women who write these chapters argue that contrary to popular belief, following Church teachings on sex and marriage, in spite of the sometimes arduous difficulty of doing so, actually helps women to flourish-physically, emotionally, relationally, and socially." -from the Introduction

"A much-needed manual for all who attempt to counsel troubled souls battling despair." --Bob Russell, Retired Senior Pastor, Southeast Christian Church Every single day, someone you know is thinking about committing suicide.
