This enlightening study employs the tools of archaeology to uncover a new historical perspective on the Underground Railroad. Unlike previous histories of the Underground Railroad, which have focused on frightened fugitive slaves and their benevolent abolitionist accomplices, Cheryl LaRoche focuses instead on free African American communities, the crucial help they provided to individuals fleeing slavery, and the terrain where those flights to freedom occurred. This study foregrounds several small, rural hamlets on the treacherous southern edge of the free North in Illinois, Indiana, and Ohio. LaRoche demonstrates how landscape features such as waterways, iron forges, and caves played a key role in the conduct and effectiveness of the Underground Railroad. Rich in oral histories, maps, memoirs, and archaeological investigations, this examination of the "geography of resistance" tells the new powerful and inspiring story of African Americans ensuring their own liberation in the midst of oppression.

Winner of the Benjamin L. Hooks National Book Award Wnnter of the Michael Nelson Prize of the International Association for Media and History In 1964, Nina Simone sat at a piano in New York's Carnegie Hall to play what she called a "show tune." Then she began to sing: "Alabama's got me so upset/Tennessee made me lose my rest/And everybody knows about Mississippi Goddam!" Simone, and her song, became icons of the civil rights movement. But her confrontational style was not the only path taken by black women entertainers. In How It Feels to Be Free, Ruth Feldstein examines celebrated black women performers, illuminating the risks they took, their roles at home and abroad, and the ways that they raised the issue of gender amid their demands for black liberation. Feldstein focuses on six women who made names for themselves in the music, film, and television industries: Simone, Lena Horne, Miriam Makeba, Abbey Lincoln, Diahann Carroll, and Cicely Tyson. These women did not simply mirror black activism; their performances helped constitute the era's political history. Makeba connected America's struggle for civil rights to the fight against apartheid in South Africa, while Simone sparked high-profile controversy with her incendiary lyrics. Yet Feldstein finds nuance in their careers. In 1968, Hollywood cast the outspoken Lincoln as a maid to a white family in For Love of Ivy, adding a layer of complication to the film. That same year, Diahann Carroll took on the starring role in the television series Julia. Was Julia a landmark for casting a black woman or for treating her race as unimportant? The answer is not clear-cut. Yet audiences gave broader meaning to what sometimes seemed to be apolitical performances. How It Feels to Be Free demonstrates that entertainment was not always just entertainment and that "We Shall Overcome" was not the only soundtrack to the civil rights movement. By putting black women performances at center stage, Feldstein sheds light on the meanings of black womanhood in a revolutionary time.

An unprecedented look at the evolution of American police from filling their intended role as peacekeepers and guardians of citizen rights to calling themselves—and acting primarily as—"law enforcement officers." • Reveals realities and myths about the police in America, their role in our society, and what can—and can't—be done to improve relations and public confidence in our police • Provides an unbiased examination that presents BOTH sides of the issues and represents the perspectives and responsibilities of the police alongside those of the citizens they serve • Enables readers to see the evolution of police over time and grasp the various positions in the debate about the proper role of police in modern society • Presents solutions to the widespread problem of eroding respect for police agencies, discussing the issue in the broader context of how government and culture play key roles in ensuring that police agencies are competent and trustworthy

During the American Revolution (1775–1783), the British government offered freedom to slaves who would desert their rebel masters as a way of ruining the American economy. Many Black men and women escaped to the British fleet patrolling the East Coast, or to the British armies invading the colonies from Maine to Georgia. After the final surrender of the British to the Americans, New York City was evacuated by the British Army throughout the summer and fall of 1783. Carried away with them were a vast number of White Loyalists and their families, and over 3,000 Black Loyalists: free, indentured, apprenticed, or still enslaved. More than 2,700 Blacks came to Nova Scotia with the fleet from New York City. Black Loyalists is an attempt to present hard data about the lives of Nova Scotia Black Loyalists before they escaped slavery in early South Carolina, Georgia, and Florida, and after they settled in Nova Scotia—to bring back into our awareness the context for some very brave and enterprising men and women who survived the chaos of the American Revolution, people who found a way to pass through the heart, ironically, of a War for Liberty, to liberty and human dignity. Includes an insert of 20 historical images and documents.

Describes the experiences of African Americans in the South, from the Emancipation in 1863 to the 1954 Supreme Court decision that declared school segregation illegal.

As this volume indicates, the issues facing black America are diverse, and the tools needed to understand these phenomena cross disciplinary boundaries. In this anthology, the authors address a wide range of topics including race, gender, class, sexual orientation, globalism, migration, health, politics, culture, and urban issues—from a diversity of disciplinary perspectives.

These are the faces of poverty in North Carolina: scores of homeless men, women, and children take refuge in makeshift camps, barely hidden in the woods near some of our most affluent neighborhoods. Hundreds wait in lines hours long to receive basic health care at underfunded free clinics. In large cities and small towns, children—especially children of color—rely on meals at their schools to keep hunger at bay, while parents struggle in jobs that fail to pay living wages. While many in the Tar Heel State enjoy unparalleled prosperity, those born into poverty have lower odds than ever of climbing the ladder of economic upward mobility. Today, more than 1.5 million North Carolinians live in poverty. More than one in five are children. Behind these sobering statistics are the faces of our fellow citizens. This book tells their stories. Since 2012, Gene R. Nichol has traveled the length of North Carolina, conducting hundreds of interviews with poor people and those working to alleviate the worst of their circumstances. Here their voices challenge all of us to see what is too often invisible, to look past partisan divides and preconceived notions, and to seek change. Only with a full commitment as a society, Nichol argues, will we succeed in truly ending poverty, which he calls our greatest challenge.
