This discourse on the importance of television in society presents Friendly's uncannily prescient views on the corrosive effect of money on the news business, the sensationalization of news reporting, and the viewing public's appetite for quality broadcasting. With Edward R. Murrow, Fred Friendly practically invented television journalism. Through telling anecdotes and penetrating analysis, he recalls his collaborations with Murrow, from their stinging documentary on Senator Joseph McCarthy to CBS's pioneering coverage of the burgeoning civil rights and anti-Vietnam War movements. Friendly also recounts his resignation as president of CBS News in 1966, when the network ran reruns of I Love Lucy instead of Senate hearings on the war in Vietnam. Following that controversial decision, he began writing this memorable book.

Brilliantly paced, witty, crackling with energy and suspense, >Special Circumstances> is a phenomenal thriller that introduces an electrifying new voice in legal fiction.

There are times when God surprises us in the midst of our sorrows by showing us things we never could have learned had we not experienced loss. I know that sounds ridiculous and perhaps you may think it is - but then only He knows what it takes to make us into the image of His one and only Son! You've often heard people say, "God cares more about our character than He does about our comfort" and through this journey He showed my husband and myself that really the only way He could develop in us the character of Christ was to walk with us through the journey of cancer. John learned much faster than I, and God took him home! I am still in the "student" phase but He is patient and kind and still with me as I continue to walk with Him and listen for His direction.

Moving beyond victimhood and into mastery, is the life-changing premise of Master of Circumstance, a timeless rendition on overcoming victimhood and the insidious snares of negative thinking that debilitate millions of people everyday. This book, written by first-time author James Morgan, was born out of his real-life experiences of growing up poor in a steel town in the Midwest. Never having met his father and raised by a struggling single-mother, James became a byproduct of his environment. In this book, he shares the

psychological techniques, mindset shifts, and practical tools he used to get his life on track and out of the victim mindset. He shares in a way that anyone can use to take back control and ownership of their life, no matter how disempowering their current or past circumstances may seem. In his authorial debut, James walks the reader through a poignant narrative on how to shatter the illusions of the victim mindset once and for all, and step into their true power as a master of their circumstances. As the name implies, this book is highly transformational and is the result of decades of James's personal trial and error before he found his true calling in life: becoming a family-focused licensed therapist and counselor. Today, James helps families grow stronger by harnessing the power of accountability while finding relief from blame, guilt, and the traumas of their past. His mission is to help people around the world achieve inner mastery over their lives.
