The other three language-power relationships refer to the powers of language that are based on a language's communicative versatility and its broad range of cognitive, communicative, social, and identity functions in meaning-making, social interaction, and language policies. Such language powers include, first, the power of language to maintain existing dominance in legal, sexist, racist, and ageist discourses that favor particular groups of language users over others.

Language and Power | Oxford Research Encyclopedia of ...  
Research in the field of linguistics has shown that there is a direct relationship between the amount of status, power or prestige a person commands and that person's range of vocabulary. In other words, the higher up the social or management ladder a person is, the better able he is to communicate in words and phrases.

intonational cues, altogether absent is an analysis of the role of language in the enactment of power. This is a serious drawback, for language is human's 'thickest', most critical, most information-rich communicative medium. Politeness theory, in contrast, directly scrutinizes language. A Conceptual Model of Politeness Behavior

Language and power: an empirical analysis of linguistic ...  
Language is a very powerful tool for change, both positive and negative. "Language creates reality. Words have power. Speak always to create joy". Deepak Chopra. The power of language to influence thought makes vocabulary building a critical part of education. To broaden language is to broaden the ability to think. We can see this in children, whose thinking develops hand in hand with the language.
