News gathering is a large, complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic, best learned through trial and error. *Advanced Reporting* takes the opposite approach, focusing on reporting as a process of triangulation based on three essential activities: analyzing documents, making observations and conducting interviews. In this readable book, veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross-check and authenticate facts, to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding. This book will help to prepare students for a profession marked by increasing complexity and competition. To succeed in this environment, journalists must learn to make the most of digital media to intensify the impact of their work. At the same time, reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism, but also collaborate in its creation. Discussion questions and exercises help students put theory into practice.

“A careful, in-depth account of Ambassador Faith Whittlesey’s time both in and outside of Washington . . . a pioneer for women in politics” (American Swiss Foundation). “Ginger Rogers did everything that Fred Astaire did,” so the saying goes, “but she did it backwards and in high heels.” Faith Whittlesey popularized this quotation during the 1980s, and many attribute the line to her. In this book, the life and career of Faith Whittlesey gives concrete meaning to the quotation. Raised in western New York State by highly motivated Irish-American parents of limited means, she worked to reach an eminent position as Ronald Reagan’s ambassador to Switzerland—twice—and to serve as the highest-ranking woman on Reagan’s White House staff from 1983–1985. There, she occupied the West Wing office soon to be Hillary Clinton’s, and as a widow since 1974 with three children, provided a female influence of her own to presidential culture well before it was fashionable. After leaving government service, Whittlesey practiced private-sector diplomacy, serving from 1989 as Chairman and then Emeritus of the American Swiss Foundation, organizing several private high-level delegations to visit China, and participating, both publicly and at times “behind the scenes,” in discussion of the most significant public policy issues of recent decades. This book “tells the story of the political career of a remarkable and sometimes polarizing political figure,” who despite daunting obstacles, was able to achieve exceptional influence, then use her position for the furtherance of common good (The Philadelphia Inquirer).

This volume provides a fresh approach to the study of introductory sociology. It looks at the social world from a global perspective, recognizing that it is increasingly difficult to understand one country in isolation from another.
