We're trying to monitor the RAID on a SuperMicro server with a AOC-S2208L-H8iR RAID card but haven't figured out how to do this yet. I'm assuming that the SuperMicro Doctor utility won't work because the server is running Citrix XenServer hypervisor. Is there a way to configure email monitoring or SNMP monitoring? We have access to IPMI but it also doesn't show the RAID status. Answer: You may ...
