Daniel Gerould's landmark work, *Theatre/Theory/Theatre*, collects history's most influential Eastern and Western dramatic theorists - poets, playwrights, directors and philosophers - whose ideas about theatre continue to shape its future. In complete texts and choice excerpts spanning centuries, we see an ongoing dialogue and exchange of ideas between actors and directors like Craig and Meyerhold, and writers such as Nietzsche and Yeats.

The theater/theory embrace also has consequences for teaching what we generally call practice. One of the premises of the new program at Harvard is to teach both theory and practice. Needless to say, this can mean many things. It can mean that students will work alongside theater professionals, many of whom are based at the American Repertory Theater.

While performative elements are present in every society, it is customary to acknowledge a distinction between theatre as an art form and entertainment and theatrical or performative elements in other activities. The history of theatre is primarily concerned with the origin and subsequent development of the theatre as an autonomous activity.

Theatre or theater is a collaborative form of performing art that uses live performers, usually actors or actresses, to present the experience of a real or imagined event before a live audience in a specific place, often a stage. The performers may communicate this experience to the audience through combinations of gesture, speech, song, music, and dance.
