This important, timely, and thought-provoking reader is a collection of original chapters by authors from five different countries, each of whom explores a facet of transformative leadership. Transformative leadership is fundamentally a critical approach to leadership that goes well beyond the tenets of most current leadership theories to focus on social transformation as the basis for both individual and collective achievement. The text clarifies and elaborates the concept, linking it to other theories including ways of thinking about curriculum and pedagogy to prepare leaders for a more transformative role.

This volume examines the importance of leadership in developing an effective sustainability strategy. It defines the sustainability mindset and surveys the primary motivations, conditions, or environment(s) that cause leaders to embrace sustainable practices. As described in the UN Sustainable Development Goal 8, embracing the sustainability mindset will lead to greater productivity and promote economic growth. Organized into themes of organizational operations, leadership competencies, and leadership practices, the chapters, written by contributors representing global perspectives, tackle topics such as strategy, culture, and

seven principles of curriculum leadership, which provide a framework for the presentation of a theoretical platform that guides a four-phased process. The curriculum problem solving has four interrelated phases, and advice on studying and practicing each phase has been organized into separate chapters using a montage format incorporating inquiry prompts, supportive quotations, critical commentaries, practical tips, narrative illustrations, and study recommendations. There is a continuous recognition of the ways in which the four phases are folded into one another in highly interactive ways; hence, the problem solving approach is described as a fourfold process. The text concludes with an epilogue honoring the disciplined
