It is estimated that by the end of 2020 70% of every ad dollar spent will wind up in the pockets of one of these tech giants. The death of programmatic and the phasing out of third-party cookies has helped all three of these companies construct 'walled gardens' of data where they can control access.

~~Can AdTech Scale The Walled Gardens?~~

The walled garden will truly be a treat for the senses once it is complete. The bothy buildings are well on their way to being transformed. Earlier this year you may have noticed we were selling roof slates for £10. Visitors could write a message onto the inside of these slates to be preserved into the building. These are all in place now and ...

~~Helmsley Walled Garden - Come and discover our relaxing garden~~

A walled garden is a garden enclosed by high walls for horticultural rather than security purposes, although originally all gardens may have been enclosed for protection from animal or human intruders. In temperate climates, the essential function of the walls surrounding a walled garden is to shelter the garden from wind and frost, though they may also serve a decorative purpose.

~~Walled garden - Wikipedia~~

The extraordinarily robust ecosystems of the Walled Gardens have created an uneven playing field for publishers, agencies and consumers. Plotting the way forward for publishers and advertisers is perhaps one of the biggest struggles our industry faces. A diverse collection of experts from brands, publishers, tech companies and agencies gathered ...
